EP055 BLK / Black
EP055 AB / Architectural Bronze
EP055 VG / Verde Green

36" EXTENSION POST

EP090 BLK / Black
EP090 AB / Architectural Bronze
EP090 VG / Verde Green

Manufacturer recommended usage for the following fixtures: F7150, F777, F787, F707, F70108, F9030, 5500B, 3400B, F8010, and F9020. May also be used with F1010 and F1020 when used in conjunction with a mounting bracket (F-13, F-23).

70 ACCESSORIES

ENHANCER

MODEL #B00STER

In line Voltage Enhancer may be used on long runs to provide proper voltage to the fixtures. It will compensate for voltage drop on long runs when needed. Ask your GLI representative for more information.

PLUGGABLE GRASSLIN TIMER

MODEL #PT301

German-made pluggable Grasslin Timer. Pin set allows multiple on-off times. For use with all pluggable transformers.

DIGITAL TIMER

MODEL #DT301

Pluggable digital timer with battery back-up. For use with all pluggable transformers.

PLUGGABLE PHOTOCELL

MODEL #PC600

Commercial grade pluggable photocell for use with all transformers.

WIRE CONNECTORS

MODEL #CON

Wire connectors offer a one-step connection with vampire teeth for direct burial use.

PORTABLE POWER PACK

MODEL #BP12V

12-volt rechargeable battery powers up to four fixtures at one time and is ideal for nighttime illuminated demonstrations.

Accessories: Battery bag and charger

PLUGGABLE PHOTOCELL

MODEL #PC10F

Commercial grade pluggable photocell with 10' lead. Allows transformer installation in darkened areas while allowing photocell operation. For use with all transformers.

HIGH HEAT WIRE NUTS

MODEL #WIRENUT

High heat wire nuts can be used in place of our connector blocks. Rated for high heat applications with low voltage (12V) landscape lighting.

RELAMPING TOOL

MODEL #LMPTL

Metal tool used to make changing bulbs quick and easy. This tool grabs the rim of the bulb to help pull it out of the socket.

ACCESSORIES

SPOTLIGHT RIM

MODEL #SPOT RIM

DESIGN: Die-Cast Aluminum. Replaces the standard top for the F7150, F777. Flat top with 3" diameter.

AVAILABLE COLORS: Architectural Bronze (AB) or Black (BLK)

ACCESSORIES FOR USE WITH PVC WELL LIGHTS:

WELL LIGHT COVERS

MODEL #SFCOVERBR

DESIGN: Solid brass cap with glued in glass lens. For use with any PVC well light. Keeps debris from building up inside the PVC canister.

MODEL #SFCOVERBLK

DESIGN: Black PVC cap with glass lens. For use on the slanted side of any PVC well light. Keeps debris from building up inside PVC canister.

72 ACCESSORIES

UNIVERSAL MOUNTING BASE

A / MODEL #09110

DESIGN: Die-cast aluminum

MEASUREMENTS: 3.5" x 1.125"

APPLICATION: For hard surface mount, used in place of a Ground Stake. Universal fit with most fixtures that allow for a stake mount.

SUGGESTED APPLICATIONS: Concrete, trees, wall surfaces, etc.

AVAILABLE COLORS: Architectural Bronze (AB) or Black (BLK)

MINI UNIVERSAL MOUNTING BASE

B / MODEL #09100

DESIGN: Die-cast aluminum

MEASUREMENTS: 6cm diameter.

APPLICATION: For use with F70108AB and F7010L

SUGGESTED APPLICATIONS: Concrete, trees, wall surfaces, etc.

AVAILABLE COLORS: Architectural Bronze (AB)

FOR USE WITH 12-VOLT FIXTURES

GROUND STAKES

All Ground Stakes are a universal fit with any fixture that allows for a stake mount. All Poly Stakes are non-corrosive and provide maximum support and stability.

A / MODEL #0900

7" cast metal ground stake

B / MODEL #LV120

8.5" poly ground stake

C / MODEL #LV130

8.5" poly ground stake with recessed thread

D / MODEL #LV140

19" x 2" diameter heavy duty poly ground black stake

E / MODEL #LV150

19" x 4" diameter heavy duty poly ground black stake

ACCESSORY FOR USE WITH LED BRICK LIGHTS:

LIGHTING WIRE

16/2, 12/2, 10/2 OR 8/2:

Made in the USA. Multi-stranded copper with UV-resistant casing. Rated for low voltage landscape lighting usage. For use with all 12-volt rated fixtures.

ACCESSORIES

ACCESSORY FOR USE WITH LED BRICK LIGHTS:

BRICK LIGHT SLEEVE

MODEL #08201

Durable Die-Cast Aluminum. Allows F20103, F20110, F20100, or F20101 LED Brick Light to be used in solid surface areas. Fixture slips into sleeve and connects to rim area.

LENS COVER FOR F9030

MODEL #CV9030

Frosted Polycarbonate plastic cover to be used with the F9030 Wall Washer.

WELL LIGHT EYEBROW

MODEL #F-11

Die-Cast Aluminum. Replaces standard top for F1010 Well Light. The Eyebrow works as an anti-glare shield. Directs light away from eye line; along tree lines, walkways, and drive areas.

WELL LIGHT MOUNTING BRACKET

MODEL #F-13

Die-Cast Aluminum. Attaches to F1010 Well Light to allow mounting to solid surfaces such as concrete, rocks, walls, etc. Also allows fixture to be used with any ground stake.

WELL LIGHT SLEEVE

MODEL #F-14

Die-Cast Aluminum and PVC. Allows F1010 Well Light to be used in solid surface areas such as concrete or pavers. Fixture slips into sleeve and connects to rim area.

WELL LIGHT SLEEVE (LG)

MODEL #S08223

Stainless Steel. Allows for S1020 well light to be used in solid surface areas such as concrete or pavers. Fixture slips into sleeve and connects to rim area. For use with S1020.

LENSES

HONEYCOMB LOUVER

MODEL #H3050

Poly Honeycomb. Application: To diffuse light and reduce glare. For use with the following fixtures: F7150, F777, F787, SF1009, and SF1053.

HONEYCOMB LOUVER

MODEL #H4000

Poly Honeycomb. Application: To diffuse light and reduce glare. For use with the SF1048.

CLEAR DOME LENS

MODEL #L011

Tempered Glass Dome. Application: To help keep lens clear of debris build-up. For use with the following fixtures: F7150, F777, F787, SF1009 and SF1053.

FROSTED DOME LENS

MODEL #L015

Tempered Glass Dome. Application: To help keep lens clear of debris build-up and soften glare. For use with the following fixtures: F7150, F777, F787, SF1009 and SF1053.

COLORLED LENS PAK

MODEL #L004

Accessory drop on lens made of colored polycarbonate plastic. Each Lens Pack contains a Red, Blue, Green, and Amber colored lens. To be used as an accent filter with the following fixtures: F7150, F777, F787, SF1009, and SF1053. Manufacturer recommends for use with a 35-watt or less MR-16 bulb.

CLEAR FLAT LENS

MODEL #L012

Tempered Glass Lens. Application: Replacement lens for use with the following fixtures: F7150, F777, F787, SF1009 and SF1053.

LINEAR LENS

MODEL #L013

Tempered Glass Lens. Application: Create a softer focus of diffused light and to elongate the beam spread on columns, archways, and taller trees. For use with the following fixtures: F7150, F777, F787, SF1009 and SF1053.

FLAT FROSTED LENS

MODEL #L014

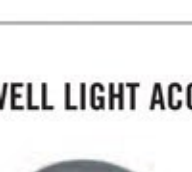

Tempered Glass Lens. Creates a softer focus and decrease glare. For use with the following fixtures: F7150, F777, F787, SF1009 and SF1053.

LENS COVER FOR F9020

MODEL #CV9020

Frosted Polycarbonate plastic cover to be used with the F9020 Miami Path Lighter.

WELL LIGHT EYEBROW

MODEL #F-21

Die-Cast Aluminum. Replaces standard top for F1020 Well Light. The Eyebrow works as an anti-glare shield. Directs light away from eye line; along tree lines, walkways, and drive areas.

WELL LIGHT GRILL

MODEL #F-22

Die-Cast Aluminum. Replaces standard top for F1020 Well Light. Grill protects lens area from impact damage and debris. Also diffuses light to soften and reduce glare.

STAINLESS STEEL ACCESSORIES FOR USE WITH S1010, S1020 AND S5010

WELL LIGHT SLEEVE

MODEL #S08010

Allows for S1010 well light to be used in solid surface areas such as concrete or pavers. Fixture slips into sleeve and connects to rim area. For use with S1010.

WELL LIGHT SLEEVE (LG)

MODEL #S08223

Stainless Steel. Allows for S1020 well light to be used in solid surface areas such as concrete or pavers. Fixture slips into sleeve and connects to rim area. For use with S1020.

WELL LIGHT GRILL

MODEL #S5010 GRILL

Stainless Steel. Replaces standard top for S1010 Well Light or S5010 Pond Light. Grill protects lens area from impact damage and debris. Also diffuses light to soften and reduce glare.
